Good Afternoon Ms. Reynolds,
I left you a detailed voice message. Please feel free to contact me via cell 850-363-0974.
I'm thinking www.gsa.gov, but we can discuss.

Make it a great day!

Good afternoon,

My name is Mary Reynolds and I work with the Environmental Protection Agency in Region 4. I called and left a message on your voicemail, but was hoping I can be helped here as well. I received several mold and indoor air quality complaints regarding the buildings in the FCI Tallahassee Federal Prison. Normally in these cases, I respond to the requester to contact their local code enforcement officials to inspect for issues that can lead to mold (i.e. structural damage), but in this case I'm not quite sure who is responsible. Would you be the ones to inspect the prison or would it fall under the jurisdiction of the Federal Bureau of Prisons? I've tried calling the prison, but I was unable to reach them. Additionally, the complaint mentions asbestos. Is this something your office handles as well? Any help would be much appreciated!

Thank you for your help!

Mary
